Faculty, Students, Alumni and Friends,

During the past year the campus plan for Palm Beach Junior College was re-studied and the revised development plan was approved by the Board of Public Instruction. This revised plan provides for the physical facilities necessary for a student body of 7,000 by 1971-72. The 4,000 day students and 3,000 evening students will have adequate parking space and will attend classes in air-conditioned buildings. Each biennium the State Legislature releases funds to the College based upon its increase in enrollment. It appears that Palm Beach Junior College will be engaged in a continuous building program on this campus until 1972.

Even more important than the new physical facilities which will be added during the next six years are the technical and specialized curricula which are now available and are being planned for the immediate future. Palm Beach Junior College has received recognition for the breadth of educational opportunity it provides to the people of this area. The College will continue to explore these opportunities and, at the same time, continue its interest in Science and the Humanities.

Palm Beach Junior College, in its thirty-one years of educational service, has played a major role in the preparation of the teachers, doctors, lawyers, dentists, engineers, business men and community leaders of our county. We look forward to an era of even greater service with the aid of these alumni and friends.

A handwritten signature in cursive script that reads "Harold C. Manor". The signature is fluid and elegant, with a large initial 'H' and a long, sweeping tail on the 'M'.

Harold C. Manor, President

eulogy to our brother

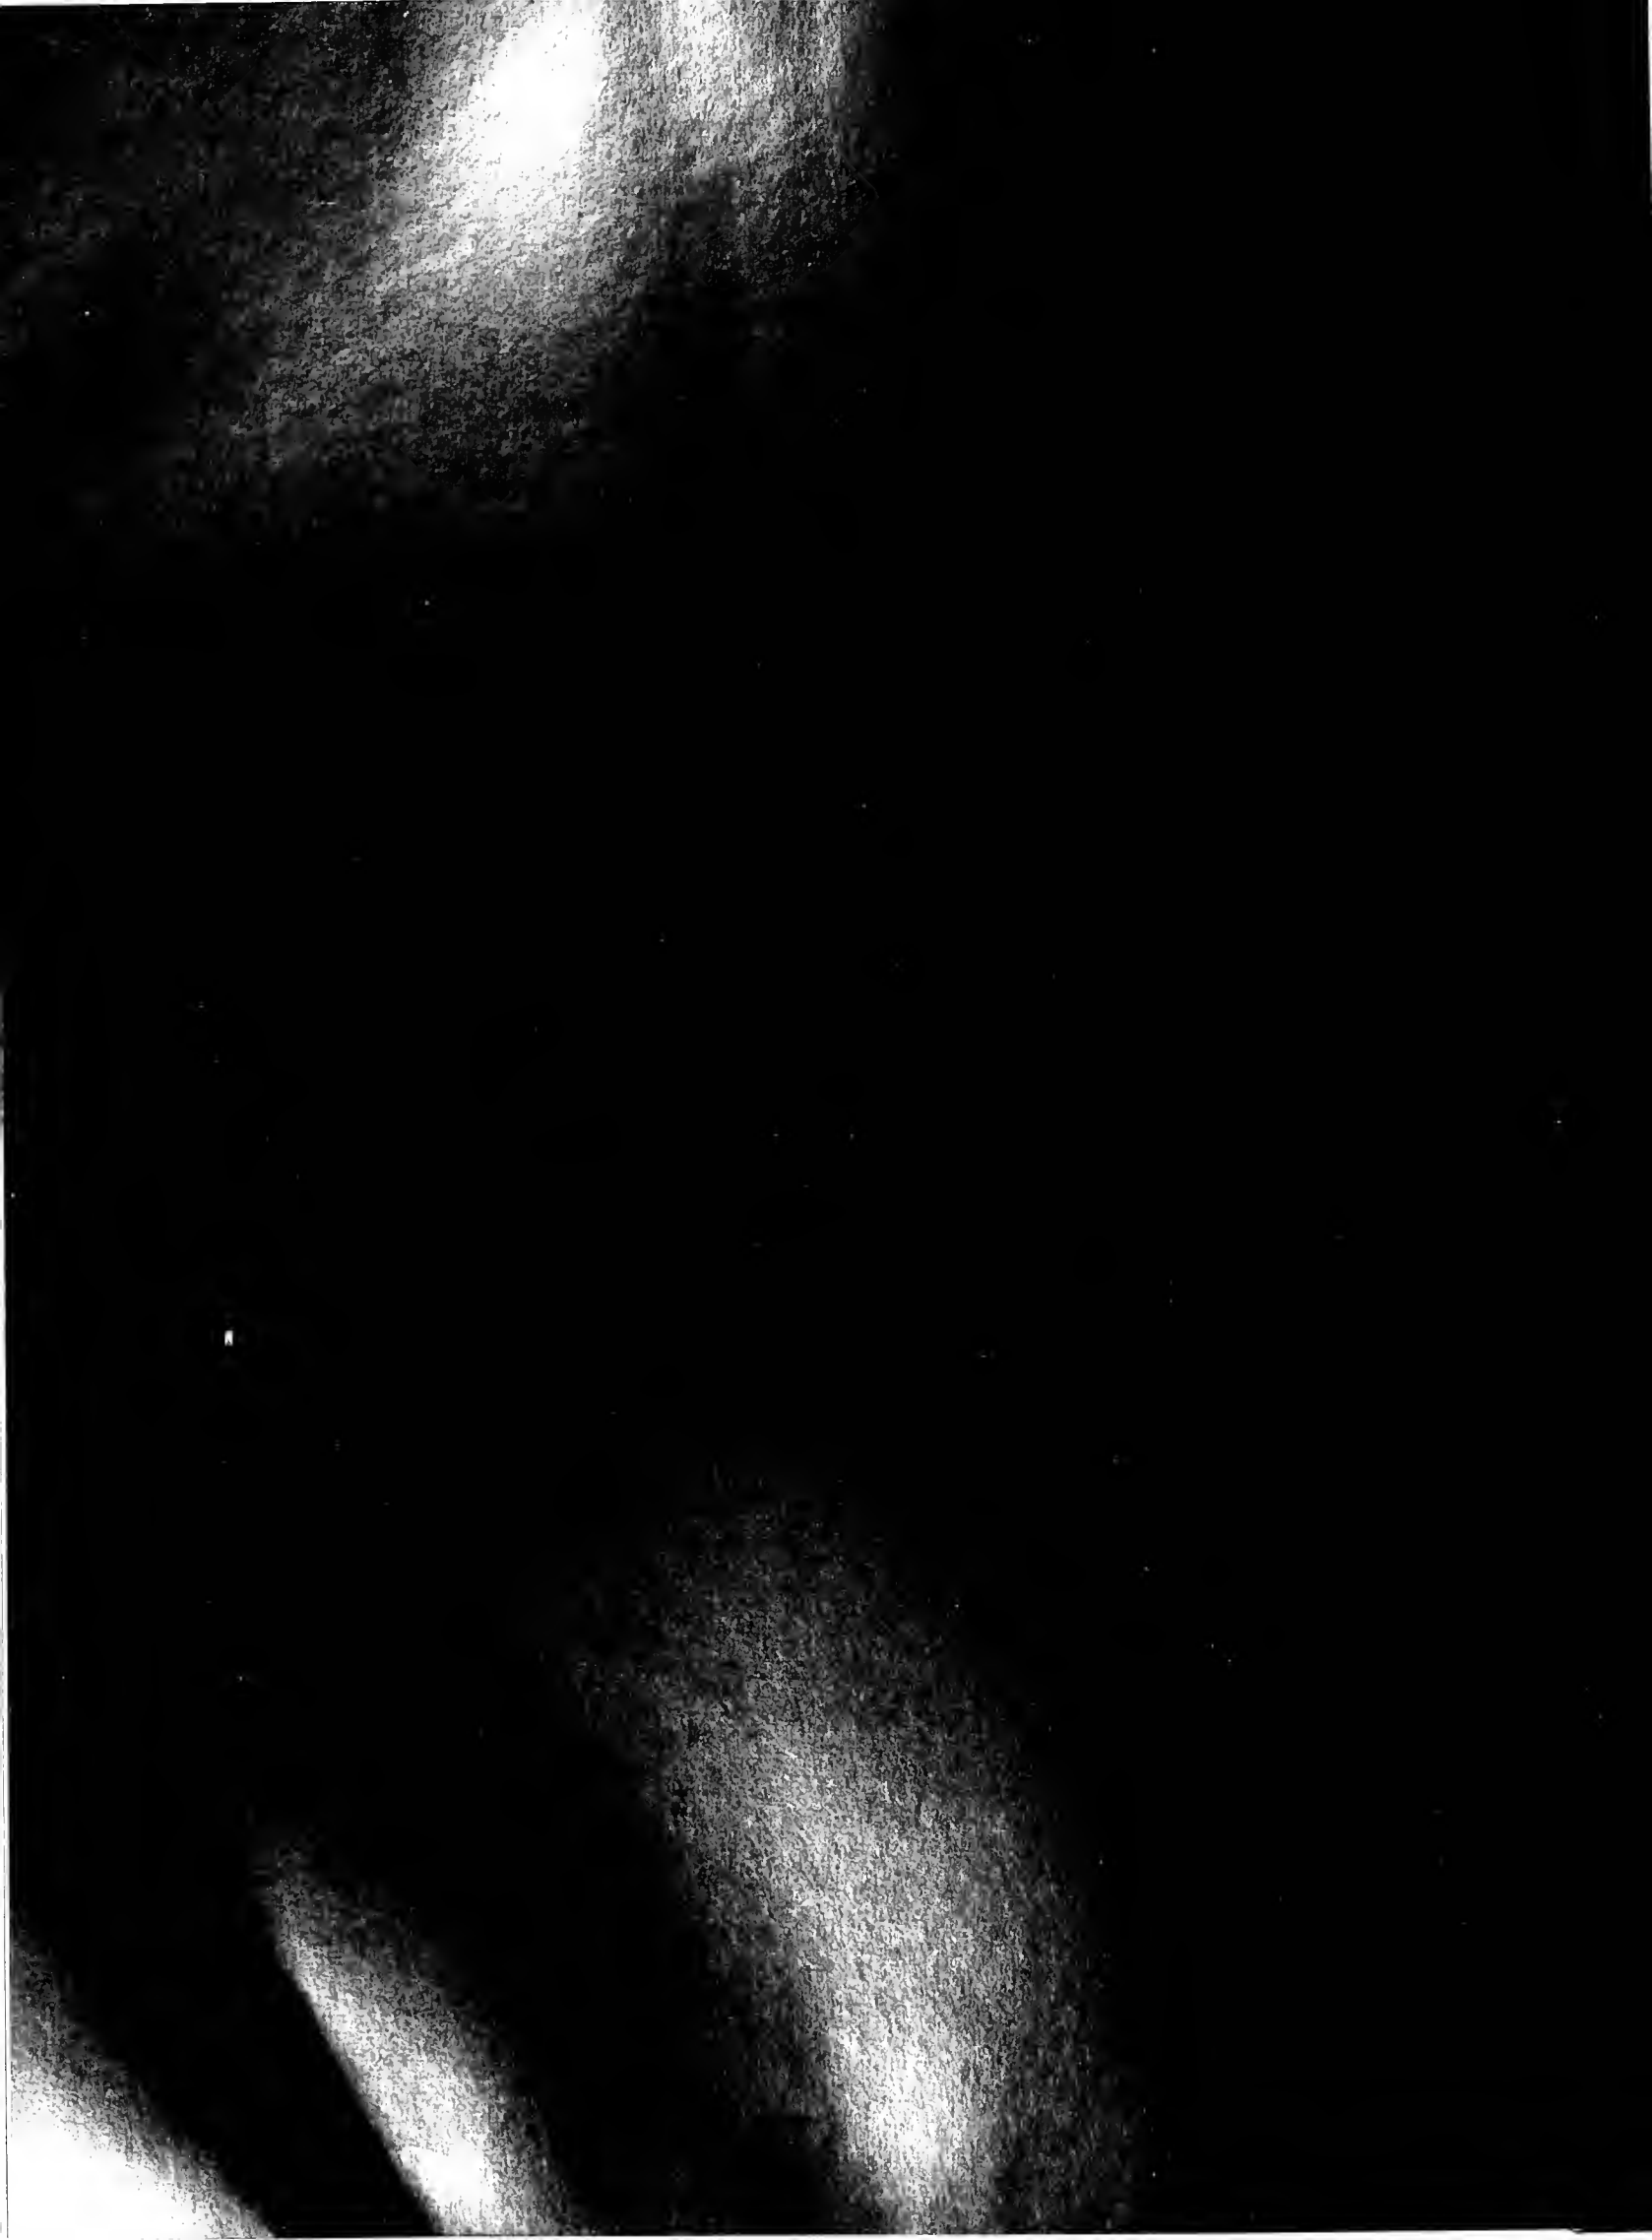

reality, often thought of as life and death. who can be considered capable of writing this eulogy? must he be a friend, relative, or loved one? not being any one of these, but a mixture of all three, i submit to the brotherhood my offering.

in a friend, we all look for companionship, loyalty, and truth. to me, sandy bruce existed as much more than a mere companion in whom traits of friendship sparked. his truth of his conception of truth, rested within the image he portrayed as a mere man. to recognize truth is a wonderful asset. sandy possessed this ability. this ability enabled him to remedy many shortcomings. if once, making a misjudgement, you possess the ability to profit from such, you may truly be known as a man.

we were not as relatives, connected by blood or marriage; kinsman or kinswomen. each of us within our hearts considered the other brother through another relationship. death can not break this chain that has bound us together. though now, only my heart functions in the capacities of life, our grounds of brotherhood show the strength of a vast ocean.

i write this to our brotherhood, so that those of you unable to comprehend the feelings that now lie heavy in your heart may rest easy. sandy is no longer here to touch, to talk, or to walk, he often used the universal greeting of friendship. close your eyes and picture the last time you clasped the hand of sandy bruce, a true friend and a brother to be proud of. our brotherhood is our nonrelated family. sandy has passed on to another world. his memory will be cherished by us, as he will cherish his memory of you chi sig.
